

Westinghouse

DISTRIBUTION CENTER

ACE HARDWARE DISTRIBUTION CENTER

Prince Georges County, Virginia

BENEFIT:
70% Energy Savings

Ace Hardware's Retail Distribution Center recovered an incredible 70% in energy savings when it replaced the fixtures in its Prince Georges County, Virginia location with a Westinghouse Lighting Solutions lighting system. The enormous cost savings were achieved by replacing its energy-wasting metal halide fixtures with Westinghouse's 3-lamp medium-beam and 2-lamp narrow-beam fixtures in a one-for-one replacement.
