## OUTDOOR FACILITY

### CVS PHARMACY

100 Stores Annually

#### **BENEFIT:**

Substantially Improved Aesthetic

To improve the look of CVS store exteriors, CVS's store design department wanted to eliminate the shadowing caused by their existing fluorescent perimeter lights. Westinghouse Lighting Solutions developed a custom reflector system and adjustable fixture system that eliminated the shadowing and allowed for a single fixture to properly light any store dimension. Without increasing the energy usage, shadows were eliminated, and light levels on the store exteriors were greatly enhanced.
