

WESTINGHOUSE
LIGHTING
SOLUTIONS

SPORTS FACILITY

Flyers SKATE ZONE

NHL Regulation Rinks, Philadelphia, PA

BENEFITS:

- Annual kWh Savings **50%**
- Annual Energy Savings **\$12,500**
- Additional savings with less HVAC required.
- Reduced Carbon Footprint by 50 Tons of CO₂ annually.*

Before

After

Project goal was to improve light distribution, provide longer lumen maintenance at required 70 footcandle level with quick cold start and restart. Provide safety with lens door and wire guard combination.

Additional benefits realized as shadows beneath players were reduced keeping more light on the puck. HVAC /Air Handling costs were decreased in this 50° cooled facility. T5HO Retrofit was one-for-one replacing metal halide 465 watt system utilizing same downrod with stem mount hanger and toggle/cable kit. Facility looks brighter, cleaner with employees and players noticing the upgrade.
